Meeting of the American Association of Artificial Intelligence to discuss long-term implications of AI, including popular beliefs and social disruption, Asilomar, California, February 2009

July 28, 2009

Will Machines Outsmart Humans?

Source: NY Times, original story by John Markoff.

Cyberpunk Review version of John Markoff’s report on this meeting in the New York Times, July 2009

NY Times reporter John Markoff expresses the concerns of some scientists who want to slow or stop research into robotic autonomy, fearing that loss of human control may lead to a “robot revolt.”
